Survey: "Safety and Assistance Systems in Fleets"

The FIA Foundation works on a project called eSafetyChallenge, funded by the European Commission. Together with Fleet Europe we call for your opinion on a short survey about safety and assistance systems in fleets.

All participants will get the results for free and on top you can register yourself for a personal invitation by the FIA Foundation to a main event this year, also for free. Take profit for your own fleet management and click [here](#) for the short survey...
