IFWC / eSafetyChallenge survey on "Safety and Assistance Systems in Fleets"

Are you looking for more information on "Safety and Assistance Systems in Fleets"? Then take our survey and use the results for your own fleet management – for free.

Fleet operators are being called upon by the eSafety Challenge to help provide an insight into safety and assistance systems in fleets.

Funded by the European Commission, the eSafety Challenge is an annual event that promotes and highlights the life-saving potential of advanced vehicle safety technologies.

The event is run by the IFA Foundation and is focused on innovative vehicle safety technologies and the potential for lives to be saved on the roads through increased deployment of these technologies.

IFWC readers can play a key role in the event by filling out a short survey about safety and assistance systems in fleets.

All participants will receive the results of the survey for free. In addition, you will receive a personal, complementary invitation by the IFA Foundation to the eSafety Challenge main event.

For more information and to fill out the short survey, please visit:
